Summary

Associate degree, Alexandria National University , GPA: 3.81

2022 – 2026

Computer Science student at Alexandria National University (Cyber Security Department) seeking to develop my skills in Backend Software Engineering with ASP.NET ☑ Core. I'm eager to learn and apply fundamental software engineering concepts including design patterns, SOLID principles, and system architecture. I believe in building strong foundations and am committed to understanding the 'why' behind technologies, not just the 'how.' Looking for an opportunity to contribute to meaningful projects while learning from experienced developers and growing as a software engineer.

alexandria, Egypt

Skills

Technical Skills

- **Languages:** C++, C#, JavaScript, TypeScript, Rust
- **Backend:** ASP.NET ☑ Core , Entity Framework Core, Express.js, REST APIs
- **Databases:** PostgreSQL, MongoDB, SQLite
- **Frontend:** Angular (Basics)
- **Fundamentals:** Data Structures and Algorithms, Object-Oriented Programming, Design Patterns, Operating Systems Concepts, Database Management Systems, Computer Networks
- **Tools:** Git/GitHub, Visual Studio, VS Code, Linux
- **Soft Skills:** Communication, teamwork, adaptability

Projects

Quick Cart, Client: MEAN Stack NTI Internship Program ☑

08/2025 – 09/2025

- **Client:** MEAN Stack NTI Internship Program
- **Description:** Developed a full-stack e-commerce web application serving multiple users, enabling customers to browse and purchase products seamlessly. Admins can manage the platform by uploading, updating, and organizing products efficiently. Emphasizes modular architecture, scalability, and maintainable code.
- **Features:** Product browsing and search, shopping cart, order management, admin product management, responsive design.
- **Technologies:** MEAN Stack (MongoDB, Express.js, Angular, Node.js)
- **GitHub:** github.com/MarkMagdyAyoub/ECommerceBackendAPIs ☑

TreeTalk, Q&A Social Communication System

01/2025 – 04/2025

A full-stack Q&A platform designed to enhance social interaction and knowledge sharing.

- Implemented **Reddit-style threaded, tree-structured discussions** for engaging conversations.
- Built a **dynamic real-time content feed** to display the latest posts and interactions.
- Designed **customizable user profiles** with personal data management.
- Enabled **interactive posting** with questions, replies, and likes.
- Integrated **secure authentication** using JWT, Google OAuth 2.0, and BCrypt.
- Developed a **responsive UI** with Razor Pages , HTML , CSS , JS and Bootstrap.
- **Github:** <https://github.com/MarkMagdyAyoub/TreeTalk> 

Spotta

11/2024

- **Description:** Developed a mobile application using Flutter that connects customers with entertainment area owners (tenants). Tenants can upload and manage their listings, while customers can browse, view location details via interactive maps, and book available spaces. The app features real-time chat functionality to streamline communication between users and tenants. It integrates the OpenRouteService Map API to display precise entertainment area locations. The project was built with clean, modular code using object-oriented principles
- **Technologies used:** dart , flutter , firebase database , openroute service api , git/github , google authentication
- **Github:** <https://github.com/MarkMagdyAyoub/Spotta-FlutterApp> 

Furniture Ecommerce

01/2023

- **Furniture Store E-commerce Website** Developed a fully functional e-commerce website for a furniture store, focused on delivering a seamless shopping experience without relying on any frontend or backend frameworks. The project emphasizes core functionality and how each component works under the hood, with a modular architecture designed using object-oriented programming principles. Features include responsive design, dynamic product listings, a shopping cart, and an integrated checkout system, all built from scratch to highlight strong understanding of web fundamentals.
- **Technologies Used:** HTML, CSS, JavaScript, PHP, MySQL, Git
- **GitHub:** github.com/MarkMagdyAyoub/Furniture-Store-Website
